OBJECTIVE OF THE SUMMIT

The core objective of the African Continental Engineering, Architecture, Construction and Real Estate Summit (ACEACRES) is to build an integrated African built environment to create opportunity for high-end business networking, foster unity, partnerships and collaboration for corporate growth and for the African continental prosperity at large. The Summit is a grand gathering of influential building contractors, civil/electrical engineers and contractors, surveyors, planners, architects, projects managers, real estate developers, the diaspora community road contractors, building and construction material equipment, supplies, glaziers, fabricators, interior decor companies and professionals, roofing companies and technicians, transport & logistics companies, energy and power service providers, facility management professionals and institutions, project management professionals and institutions, investors, project insurance institutions, artisans etcetera, climaxed with the African Continental Built Environment Excellence Awards (ACBEEA)

WHO TO ATTEND

All stakeholders in the built environment; the building contractors, road contractors, construction firms, engineers (civil, electrical, electronic, mechanical, structural, safety mining, environmental, chemical geotechnical, geodetic, materials), surveyors, planners, architects, project managers, land economists, real estate developers, builders, landscape professionals/contractors, real estate professionals the diaspora community (home buyers), building and construction material/equipment suppliers, glaziers, fabricators, interior decor companies/professionals, roofing companies/technicians, transport & logistics companies, facility management professionals/institutions, construction projects financiers, banks/bankers, investors, insurance institutions, government agencies, regulators, lot experts, construction legal consultants, artificial intelligence professionals, sustainability consultants, Oil and Gas Marketing Companies, research and technological service providing companies, artisans etc., with international participants coming down to Ghana for in-person participation from Nigeria, Rwanda, Kenya, Uganda South Africa etc. Total number of in-person attendees is projected to reach an average of five hundred (500) to six hundred (600) considering historical attendee data from last year.

BENEFITS FOR SPONSORS AND PARTICIPANTS

Sponsors: B2B, B2C networking opportunities, connecting with manufacturers, distributors, wholesalers, retailers as well as end consumers, access to attendees for data collection for future leads generation, meet potential investors, enhance brand visibility and credibility, real time lead generation, gain industry insights e.g. dynamics and modern trends, identification of new business opportunities, opportunity for joint ventures, opportunity to close B2B contracts, seal partnership deals, boost brand development, maximize sales, share product knowledge and utility information with potential customers, demonstrate unique selling proposition to potential customers, build strong network with influential industry players, get in contact with the diaspora community and opportunity to get connected by organizers to top-rated projects Contractors and professionals in Ghana and across the African continent.

Participants: Networking opportunities with industry leaders, access to cutting edge insights and new trends, learning from successful case studies, building personal capacity for resilience, exposure to new business opportunities, gaining inspiration and motivation from industry thought leaders, building relationship with potential employers/employees and mentors, access to innovative products, meeting with potential investors, opportunity to share your perspective during Q&A, meet the CEO of the Africa Continental Engineering & Construction Network and team for specific industry information and opportunities, identify lucrative business niches in the industry et cetera.

ACHIEVEMENTS OF THE SUMMIT

The 2024 edition being the 2nd edition recorded a little over four hundred (400) participants and six months down the line, the Summit have been able to refer, recommend or connect a little over one hundred and fifty (150) combined; construction companies, professionals, contractors, build material/equipment supplier's real estate developers etc. to top-rated projects, contracts and jobs in Ghana and across the African continent. This figure excludes businesses, projects, contracts or jobs individuals got through personal networking at the Summit. The Summit is the only and the biggest industry specific platform in Africa with close to a thousand (1000) network of engineers, building contractors, real estate developers, build environment professionals etc. in Ghana and across Africa. ACEACRES is by far the singular and most impactful built environment Summit in Africa.

SCENERY OF THE 2ND EDITION, ACEACRES 2024

ORGANIZER'S PROFILE

The Africa Continental Engineering & Construction Network Ltd is a Pan African built environment and real estate firm based in Ghana but has a wide network of projects and network of built environment professionals across the African continent and beyond.

OUR VISION

To be among Africa's top five (5) built environment conglomerate in the next 10 years from 2024 while creating a strong continental network and integration of Africa's fragmented built environment through a high-power professional, international and sustainably networking across the globe.

OUR MISSION

To be the industry game-changer in the delivery of superior general built environment services in all disciplines while championing the course of contemporary innovations and sustainability geared towards the socio-economic transformation of the African continent.
